

Project “Active – Programme for the Development of Teaching and Competences”

The aim of the “Active” project is to systematically strengthen the quality of education by developing the teaching competences of working staff and doctoral school students at the University of Łódź, as well as by creating sustainable solutions supporting modern academic teaching.

The project assumes the active involvement of the academic community in the process of improving the quality of education, both through participation in training courses and workshops and through the joint development of systemic solutions.

Task 5. Universal Design – courses and practical workshops on designing classes in accordance with the principles of Universal Design for Learning (course on the Moodle platform).
